

Heavy Equipment

ICM offers several heavy equipment packages to meet your plant's specific needs

By harnessing the strength of a team of creative thinkers and focused visionaries, ICM is in constant pursuit of innovations that will make the industry more profitable for plant owners and investors.

We've developed a menu of products and services tailored specifically for the ethanol industry, like our recommended Heavy Equipment Package.

From spare parts to heavy equipment, we have your plant covered

Our Heavy Equipment Program enlists some of the strongest names in the equipment manufacturing business. We're able to provide just about any piece of equipment your plant will ever need from these reliable manufacturers:

<ul style="list-style-type: none"> • Bobcat • Caterpillar • Genie • JLG 	<ul style="list-style-type: none"> • John Deere • New Holland • Rail King • Toyota 	<ul style="list-style-type: none"> • Volvo • Yale • Shuttlewagon
---	--	---

Third-party financing and leasing options are available, or you may purchase the equipment outright.

We suggest our base package, to start

Over the lifespan of your plant, you're likely to need a multitude of equipment. Sometimes short-term rentals make sense, but often leasing or owning is the smartest financial choice.

We've hand-picked a list of must-have machinery and included it in our Recommended Heavy Equipment Package. Covered by a nationwide dealer network, replacement parts and qualified service professionals are always nearby.
